SUMMER RESEARCH | DEPT. OF CIVIL AND MINERAL ENGINEERING MAY 2023 – AUG 2023

- Interfaced between Professor Emeritus Doug Hooton and EXACT Technologies to create and test prototypes for remotely monitored embedded concrete monitoring system, running 28-day monitoring tests
- Used and maintained civil and concrete casting and testing equipment
- Presented results at annual summer research conference to industry professionals; worked with CivMin department to create summer research marketing video

Relevant Coursework

- Undergraduate Thesis
  - Sand Liquefaction
- Tunnelling and Urban Excavation
  - Pre-feasibility study for new Toronto Islands ped. tunnel
- Survey Camp
  - Basic surveying and map-making
- Geotech 1 & 2
- Rock Mechanics
- Steel and Timber Design
- Reinforced Concrete 1

Extracurriculars

DESIGN TEAM ASSOCIATION DIRECTOR | UofT ENGINEERING SOCIETY MAY 2024 – MAY 2025

- Liaison between student design teams and University administration, health and safety; represented student body in University master planning meetings
- Sat on Club Affiliation Committee; assisted startup of two major design teams
- Developed long-term plans, SOPs, space allocation for Myhal Centre, 256 McCaul
- Mediated conflicts and led inter-team town halls to increase design team advocacy

CO-CAPTAIN | UofT CONCRETE TOBOGGAN DESIGN TEAM APRIL 2023 – MAY 2024

- Used Microsoft Project and Gantt charts to schedule and baseline 40+ person team
- Managed $80,000+ annual budget; interface with sponsors to build industry connections
- Reviewed construction drawings to ensure safe and manufacturable designs
- Oversaw safety and filed routine safety reports for construction and competition
- As concrete co-lead, developed and tested environmentally focused UHPFRC concrete mix
